Mr. James L. Solomon, Jr.

Dedication

This edition of the Hornet is dedicated to a young man who is deeply concerned with the "Forward Look." This concern did not build up overnight.

Mr. James Lewis Solomon, Jr. present Professor of Mathematics, adviser to the Student Council and the only Negro in the graduate school of Mathematics at our own University of South Carolina, paved his way through the highway of progress and is looking forward to receiving his Ph.D. from this university.

Mr. Solomon came to Morris College as an advanced Freshman, received his first degree in Chemistry; still looking forward he pursued study at Atlanta University for his Masters degree in Mathematics after working hard to receive a scholarship to that effect.

As any good citizen, he served his normal term in the United States Air Force where he held a position in Mechanics. He worked in the Sumter County school system before coming back to his beloved Alma Mater. He is considered as "THE MASTER MAN OF MORRIS COLLEGE," by most of the members of the Morris College family. He worked hard with the Student Council here because it reminded him of his work as a student. Prior to other achievements he wrote the Constitution while holding the office of President of the Student Council, there are many other deeds that cannot be mentioned. Mrs. Helen Solomon and their three children lift their head along with us and look forward for the next step.

We, the members of the 1964 Hornet's Staff, do hope that he will achieve his ultimate goal. We know that whatever he does he will carry Morris College in his thoughts in this "Forward Look."

FOREWORD

We live in a progressive age known more scientifically as the space age. To survive in the space age there must be progress and to progress is to move forward.

As you peer through the pages of this yearbook we, the members of the 1964 Hornet's Staff, hope that you will have the spirit of the "Forward Look."

We wish to thank each member of the staff for his contribution in making this venture a success. No one contribution can be considered as most important, the entire group's efforts were necessary to make this yearbook one of the best in the history of Morris College.

ALMA MATER

Morris our college dear
With hearts all filled with cheer
We come to thee
Throughout life's checkered ways
Thy name we'll ever praise
Teachers of youthful ways
All hail to thee.
When from our homes we came
To own thy lofty name
Breathe courage free
Parents and teachers dear
Calmed by the lack of fear
Pay homage through the years
All hail to thee.

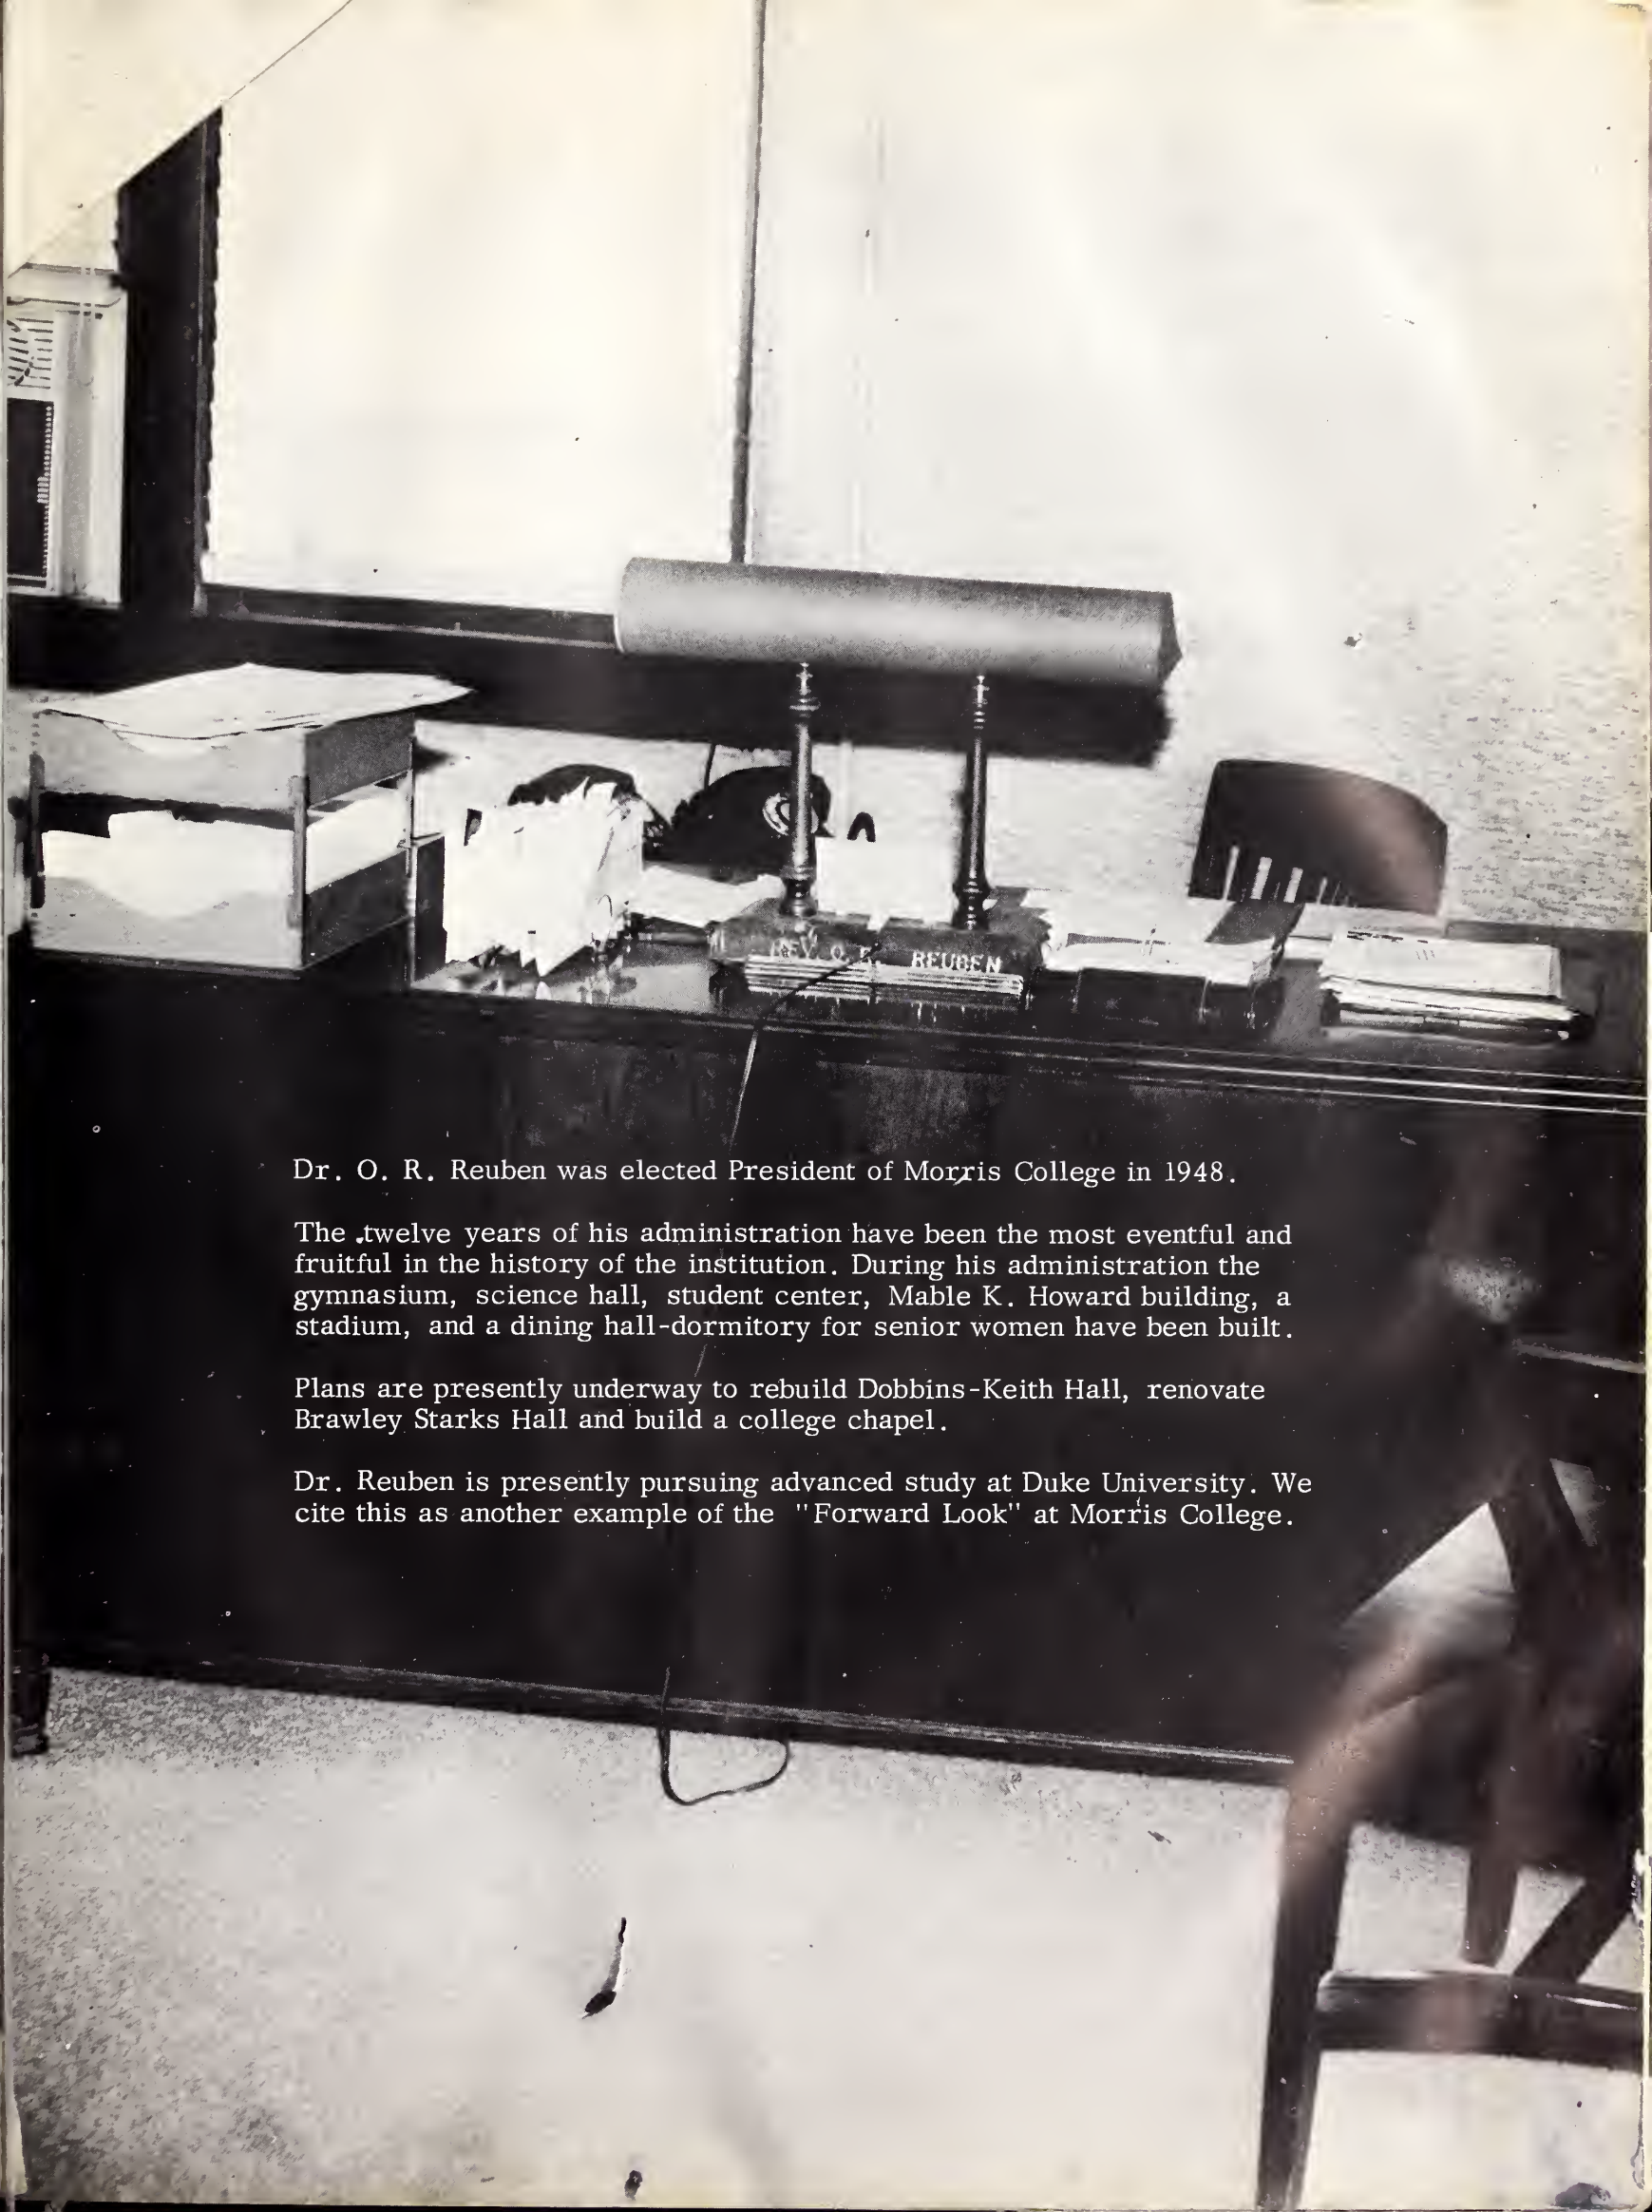

THE ADMINISTRATION

OUR PRESIDENT

Dr. O. R. Reuben

Dr. O. R. Reuben was elected President of Morris College in 1948.

The twelve years of his administration have been the most eventful and fruitful in the history of the institution. During his administration the gymnasium, science hall, student center, Mable K. Howard building, a stadium, and a dining hall-dormitory for senior women have been built.

Plans are presently underway to rebuild Dobbins-Keth Hall, renovate Brawley Starks Hall and build a college chapel.

Dr. Reuben is presently pursuing advanced study at Duke University. We cite this as another example of the "Forward Look" at Morris College.

ADMINISTRATIVE OFFICERS

Rev. Henry E. Hardin
